

EXHIBIT 5

sent to Kelleher, Jennifer <JKelleher@ap.org>

Dear Jennifer,

I am an attorney and a president of the not for profit foundation. I wrote to Maui police department and requested the autopsy report for Ms. Fuddy and did not receive it. Multiple other individuals did not receive it as well.

You posted an article, where you stated that AP received an autopsy report of Loretta Fuddy.

Maui police department states that there has to be a consent of the next of kin to release a report.

We do not know of any relative of Ms. Fuddy, who signed a consent to obtain the autopsy and publish any findings from that autopsy.

Did you get such a consent and if yes, from whom?

Did you personally receive the autopsy from Maui police department?

Do you have the actual autopsy of Ms. Fuddy or did you just repost something written by another newspaper? If so, which paper?

Subject: Google scrubbing info!!!
To: orly.taitz@hushmail.com

Dr. Taitz,

I recently became aware of you (more on that below) and can't believe that I did not know of you and your wonderful work before now. It is amazing that you have the courage to fight this just fight and I pray that soon you will find that one honest judge so that we can free ourselves of the usurper.

I work at Google and recently changed positions and I now work in the web indexing group (the heart and soul of Google). This is the reason that I finally became aware of all the hard work you have been doing for so long.

Several times you have talked about how you are "Scrubbed" from the net. I would like to give you some more information on what exactly is going on and how this is being done. First, be aware, there is no actual "Scrubbing" taking place. All that is happening is that the count of hits is being reduced.

You see, with the amount of data on the web and the daily increase in the amount of information (Something like 100,000+ Terabytes each day (not counting videos and pictures), there is really no way that we or anyone can have a dead on accurate count (even if we did, it would be out of date by the time it is presented to you). So how Google fundamentally operates is that it does a statistical survey of what is out there (the size of the sample varies greatly by the search term) and then extrapolates a number to be presented.

That is where my group comes in. We "Tune" the analysis to become more accurate by expanding sample survey groups to see the the numbers are correct, when they are not, we can adjust the tuning to reflect the larger group. Over time we can get pretty accurate.

However, almost daily we are instructed by other groups (and executives of this company) to adjust some terms up and down, thereby artificially increasing or decreasing the number of hits that are presented to the user. It was due to your name being on some of these instruction (telling us to lower your Adjustment Value, or AJ for short). It was seeing your name with additional search terms such as "Obama" and "Birth Certificate" that caused me to look you up on my own time, and so find you and the fight you are doing to save our country.

Most of the instructions we get to change your AJ values (we also call this "De-Tuning") just come from other groups and senior Execs. However, looking over every one that I have received with your name on it also includes Google's legal alias on the "To:" list. I did some investigation on why a corporate lawyer would be on some emails and not others and from what I gather this is done to make the contents of the email "Privileged Information" and not normally provided if subpoenaed.

Obviously this email address is a "fake" one and I am sending it from an open WiFi spot, I need to protect my identity and my job. I thought you should know the truth of what is going on. I am not sure what I can do to help you in your fight, but if there is anything I can do, please let me know. I will check this email every couple of days or so (from different spots). If I don't hear back from you, I will email this to you again in a week.

Keep up the fight, you are an inspiration and someday soon, the rest of the country will be ashamed of how you have been treated.

I received a lot of hoaxes, I do not know if this is real or another hoax.
Is this your real name or an assumed name?
Where are you located? In what state?
Will you be willing to sign an affidavit to be submitted to court?
